

## WatchNET Access Control Demo Kit with IP Cameras

**WAD-2D2T-IP-DEMO**

WatchNET Access Control Demo kit is a portable unit that comes with a 2 Door controller, a proximity and keypad reader to swipe/scan a card or even enter a PIN code to turn on the LED lights that reflects as the lock for each door. It also has a push button and door sensor that you can toggle ON or OFF to replicate an opening and closing of an actual door. All of these components are inside a small briefcase to carry wherever you go, this demo kit also has 2 IP Cameras that can be programmed to take a snapshot from the software from an event such as "Door open by valid card" or "Invalid card".
