&
RESILIENT**

Reliable and simple setup

The Hawk model is made to support smaller sites with few cameras and minimal need to view real-time footage locally. Data is saved locally or sent to a central data location to ensure continuous recording. Ideal for multi-site installations like retail stores, gas stations and ATMs, Hawk32 provides a simple, low-cost setup that merges seamlessly with your NetFLOW software.

Unveiling the Ultimate Video Surveillance Solution for NetFLOW

Discover the Unparalleled benefits of choosing Hawk for your business. From exceptional support and effortless installation to the outstanding performance of our products, Hawk guarantees an unparalleled enhancement to your video management experience.

Experience the Ease & Convenience

HAWK is pre-loaded with NetFLOW, saving you time on setup and installation. Just add your NetFLOW license code and it's ready to go. It's also easy to manage and service, freeing up time to spend on more important aspects of your project.

- Pre-Loaded with NETFLOW PRO
- Seamless setup with EASY license activation

This recording server is best fit without AI & Video Analytics.

****For proper AI functionality please talk to a sales representative to calculate your needs. For in-depth AI functions please only use the Hawk Server with GPU to properly maintain the load on the system.**

****Raid Card is optional for better disk utilization which can provide larger and unified storage volume**
